Poštovane kolege,

Molimo Vas da obratite pažnju na tačne dimenzije kaiševa, tačnije da li je spoljna, unutrašnja ili čak središnja dužina koju tražite. Prema crtežu pored svakog modela kaiša možete da izračunavate dimenzije. Pored postojećih šifri koje smo upisali postoji još jako veliki broj modela za koje odgovaraju naši kaiševi. I ako nemate odgovarajući šifru ili niste sigurni koja je, najbolji način je da izmerite dužinu kaiša. Najlakši i najprecizniji način merenja je krojačkim metrom sa spoljne strane kaiša.
